

## Corporate Quick Connect

### Our service

With Corporate Quick Connect, business customers who already have access to their intranet through their own VPN Internet gateways can have that same intranet access over a public wireless LAN. This user-friendly product works at all hotspots operated by Monzoon Networks and TheNet, and it does not require specific authentication in our public WLAN.

### Features

Your company's VPN gateway becomes accessible from networks operated by Monzoon Networks. Consider the benefits:

- ■ ■ No cumbersome web-page based authentication
- ■ ■ Assured authentication by your own VPN
- ■ ■ Access controlled by your IT department; no user-relevant information held by the provider
- ■ ■ Intranet access likewise established via your company's own VPN
- ■ ■ Simple cost calculations thanks to exclusive use of flat-rate charges
- ■ ■ The price includes connectivity, unlimited data volume within the available bandwidth as well as location monitoring
