

Hotel Solutions

Our service

More and more hotel guests expect low-priced or even free Internet access. Meanwhile, hotel chains and marketing organizations want to provide this as a branded service.

Monzoon has solutions to cover all the bases, and we focus on your individual requirements. From technical assistance for every aspect of your in-house project to a turnkey installation - Monzoon offers a tailor-made answer. Choose from specific services depending on your needs or existing network infrastructure.

Your electrician - our partner. We are happy to work with your trusted electrician, who will perform the necessary on-premises wiring and installation work.

Features

Flexible and individual

- ■ ■ Would you like to offer free Internet access to guests, or theme your wireless LAN welcome page and prepaid cards to match the hotel design?

Sponsored hotspot

- ■ ■ Would you like to deepen a business relationship with a supplier or partner? Use your network for advertising and sponsoring: the welcome page is excellent for message placement, or an ideal alternative is for sponsors to present their message on prepaid cards.

Commercial hotspot

- ■ ■ Monzoon Hotspot gives you a public wireless LAN facility with no infrastructural investment on your part. Shared sales revenues allow you to also benefit from guests' Internet usage. Monzoon takes care of supplying and maintaining the hardware.
